The University
HOMESTEAD ASSOCIATION
THE LANDS OF THE ABOVE-NAMED ASSOCIAtion are situated in San Francisco and are eligibly and most desirably located, adjoining the grounds purchased by the Presbyterian University Society, on which College buildings are to be at once erected. The site is less than thirty minutes ride from Montgomery street; lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of
ST. MARY'S COLLEGE.
The tract will require little or no grading, there being scarcely a single lot on which it would not be safe to build without any change of grade. It commands a
Beautiful View of the Bay,
And its opposite shore, and has a soil of extreme richness. So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract, and design building residences thereon.
The Rev. E. Thomas, D. D.,
Is President of the Association; Lester L. Robinson, formerly Vice President of the Sacramento "Railroad Company, is the Treasurer, and Thomas B. Lewis, formerly of Portland, Secretary.
Four lots, 25x120 feet each, constitute a share, costing $315—paid in monthly installments of $10 each, after the *first* payment of $20 has been made.
Maps and books giving full information of the workings of the Association can be obtained at the store of J. L. PARRISH & CO.
It is an easy and a cheap way for young men to procure property which will in a few years make them independent.

PIONEER WASHER.
JAMES BRUSIE,
AGENT FOR OREGON AND WASHINGTON TERRITORY.
THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It is easily worked by one person.
This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to all housekeepers and families and washing men and washing women.
It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it.
The undersigned is now in the city of Portland, where he can be seen at Mr G Kilbourn's Store, corner of Front and Yamhill Sts, East side, Portland, and is prepared to furnish the Machine to purchasers, and also to sell and dispose of County Rights for the sale of the same.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MAY 19.

Accident in Boston Harbor.

BOSTON, May 20.—A collision occurred in this harbor yesterday, between a schooner and a pleasure yacht, when the latter was sunk. Four out of eleven persons were drowned.

Jeff Davis has removed to the residence of O'Connor.

Judge Field Returning.

NEW YORK, May 20.—Judge Field is a passenger on the steamer for California to-morrow.

Booth's Diary.

NEW YORK, May 20.—Booth's diary has been published. It occupies less than a half a column of the *Tribune*. It is dated April 18, 14 and 21. It is unimportant, and there is no reason to suppose there has been any of it suppressed. The President authorized the publication. Secretary Stanton furnished a statement of the facts connected with the capture, and affirms the integrity of the diary since the first as shown in the statement in the diary: "For six months we worked to capture Lincoln. The cause was almost lost. Something decisive must be done. I strike boldly. My failure in owing to others who did not strike boldly. I wrote a long article and sent it to the *Intelligencer*, setting forth our wrong."

Under date of the 21st the diary says: "I am in perfect despair. I am looked upon as common cut-throat. I have been serving a degenerate country; my actions is purer than Brutus. To tell what I have done fills me with horror. God forgive me. Bless my mother to-night. Once more I will try to cross the river. I have a great desire to return to Washington and clear my name. God spare me from death as a criminal."

The *Tribune* says that Baker's exciting narrative discloses Mrs. Surratt's confession. Baker was concealed. The plot was to capture Lincoln, and she reluctantly yielded to the plot for assassination.

Booth was buried under the old penitentiary in the cell formerly used by the ordnance department.

Passengers for Europe.

NEW YORK, May 20.—A large number of passengers sailed for Europe by the *Vaile de Paris* on Saturday, including twenty-two Californians, among whom were Wadsworth, Moss and Pickering. Rumors of a disaster to the vessel are unfounded.

A cargo of wheat, originally shipped from San Francisco to France, and being brought thence to New York, was, last week, sent to Chicago.

Break in the Cable.

NEW YORK, May 20.—The location of the break in the cable is three miles from Heart's Content. It will be repaired soon.

From Mobile.

MOBILE, May 20.—General Swayne has suspended the municipal police. Violations of order will meet with military punishment. Out door meetings in the evening are prohibited, and individuals will be held responsible for the publication of incendiary articles.

Miscellaneous.

CHICAGO, May 21.—The *Republican's* Leavenworth special says of Hancock's Indian expedition, planned after enormous expenses to the Government. One camp of a friendly tribe of Indians has been destroyed. Hostile Indians could not be found. A jealousy exists between the Indian Agent and the military authorities. Generals Smith and Custar are in command of the cavalry. Troops are about to start on a scouting expedition towards Fort Sedgwick, and thence down the Smoky Hill route in search of hostile Indians. Hancock says that war exists throughout the territory between the Arkansas and the Platte, and will be continued against the Sioux and Cheyennes. Friendly Indians must keep south of the Arkansas or north of the Platte. Overland mails and trains will be furnished with military escort.

CHICAGO, May 21.—The poor house of Ingham county, Michigan, was burned yesterday, and six inmates perished in the flames.

CONCORD, (N. H.), May 20.—Thos. Austin, of Northfield, died to-day, aged 100 years and 9 months.

FORT COLLORNE, (C. W.), May 21.—On Saturday night, George Greyfell shot his brother-in-law through the heart and was himself shot shortly after by his (Greyhill's) brother.

NEW YORK, May 20.—Geo. Bancroft has notified the State Department of his acceptance of the appointment lately tendered him.

It has been fully proven before the Judiciary Committee that pardons were transmitted South by Adams Express Company, marked "300 C. O. D." but the President was not directly implicated.

The freedmen's savings and loan companies chief officer has been removed to Washington. The company have twenty-two officers. $2,000,000 have been deposited since its organization. The monthly deposits exceed $100,000.

WASHINGTON, May 20.—The population of thirty-seven States, last November, according to return from the revenue districts made to the census bureau, was 34,100,-260; including the territories, 34,505,332.

A session of Congress on July will be urged by House leaders for political objects. The Senators resist, but financial matters may require it.

Attorney General Stanbery testified before the Judiciary Committee to-day. He goes to New York for medical treatment.

Senator Sumner's speech in the executive session, in favor of the ratification of the Russian American treaty, will soon issue.

The crops in North Carolina are forward, and destitution is abating. The freedmen's prospects are encouraging.

Lieut. Dan Kilburger has been ordered to accompany recruits to California.

The Acting Secretary of the Interior has answered the application of the Oregon Central Railroad Company claiming the benefit of the Act of Congress for the proposed railroad from Portland, Oregon, refusing to accept the consent to the Act given by individuals styling themselves the corporators. The assent must be filed with the Department by a board of directors, properly constituted.

The *Times'* correspondence says the war between Chile and Peru will soon be renewed with vigor. The Spanish squadron which left Santiago will be joined at Monteveido by the iron clad *Manuenal* and other war vessels.

NEW YORK, May 21.—The *Tribune's* special says it is considered certain that the Government is ready to try Surratt on Monday. Bingham, of Ohio, will assist the District Attorney. Forty witnesses have been subpœnaed, among whom are Stanton, Ward, Baker, Conger and others. The *World's* special says the trial will be postponed to the third Monday in June.

SATURDAY MORNING MAY 25 1867

Abuse of New England

For many years there has been an incessant effort on the part of a class of bigoted politicians to array the Great West against "Republican New England" The most unworthy of all prejudices are appealed to in order to accomplish this object The people of New England are represented as a class of small souled fanatics without liberality, hospitable feeling, or any of the better traits of character And among the worst accusers of New England are some of her own children whom she has cast out The States east of the Hudson are denounced as being the home of "Radicalism" and every effort has been made to awaken in the minds of Western people a spirit of enmity against them on this account The old accusations against "Radical New England" are still kept up with all the old bitterness, but it ought to have occurred by this time to almost any mind that for all the good the expedient is doing those who employ it, it might just as well stop. The great States of the West have become the strongholds of "Radicalism," and the only result of this long continued abuse of New England before Western people, has been to fasten the more firmly in their minds the ideas and principles which are held up to execration because of their alleged New England origin The seat of empire is now in the great States north of the Ohio, and these States are becoming more and more intensely "Radical" every election They are arraying themselves more and more firmly against the party that assails "Radical New England," and the doctrines which are attributed exclusively to the "canting fanatics' of Massachusetts, Maine and Vermont, are more deeply rooted in the great States of the upper Mississippi valley than in any other portion of the country. Illinois, a State that never voted anything but a Democratic ticket until 1860, now vies in "Radicalism" with Massachusetts herself; and Iowa, Wisconsin, Michigan, Ohio, Minnesota, Kansas, and even Missouri, are scarcely behind What means, then, this constant abuse of New England by Democratic politicians on account of its 'Radicalism?" Why is this hatred so exclusive? Why do not the "Radical" Western States receive their full share of this condemnation? Consistency is not a habit with the narrow politicians who seek to make capital for their party by berating New England

Improvement of Internal Navigation.

An extensive and minute survey of the upper Mississippi river and its tributaries was made last year under the orders of the General Government The survey was conducted by Gen. G. K. Warren of the Engineer Department, the object being to ascertain correctly the nature of those streams, their depth, current and the impediments to navigation, with a view of making such improvements as would render them easily navigable Many streams were examined, and the report of the survey almost reaches the dimensions of a volume Estimates are presented of the cost of the improvements needed, and appropriations therefor, amounting to upwards of $1,000,000, are recommended. We should be glad to see the Columbia river and its tributaries receive similar attention. Surveys and improvements on our rivers are urgently needed, and we do not know that the people on the Mississippi have better claims on the Government for work of this kind than we have here. We have it from persons who have traveled in boats the whole distance from Colville to the mouth of the Desolutes that the river may be so improved that steamers can easily run between the two points. A smaller expenditure of money than is recommended for the Mississippi would reduce the rapids and give excellent navigation for this whole distance on the Columbia, besides improving many of the tributary streams, such as the Okanagan and Pen d'Oreille,—thus bringing a large extent of as fine country as can be found anywhere, within reach of good navigation. The people of Oregon, and the neighboring Territories would be glad to see this subject receive from those who represent their interests at Washington that attention which its importance demands.

The following unusually candid admission is from the *Herald*

Very probably Mr Davis was pleased with the triumph of the Democracy in Connecticut. That he should prefer the triumph of a party that would deal justly and mercifully with him and his people, to a party that always hated him and sought his life by unlawful means, is no more than might reasonably be expected

"Very probably," indeed! Naturally enough, he was delighted with the victory, as he has been delighted with every "triumph of the Democracy" since 1861. The Confederate organ complains in a most woful manner that the opposing party has "always hated Mr. Davis," and that it "sought his life by unlawful means" This party does not confess to any great love for him, such as animates the breasts of his Democratic friends and followers. When it remembers the past it thinks it has some reason to "hate" the Democratic leader. As to the charge of having "sought his life by unlawful means,"—the editor of the Davis organ probably has reference to the "unholy crusade," which the Union party made upon the Southern Confederacy, seeking not only the life of "President Davis" but of the other "eminent Christian gentlemen", who were associated with him in his efforts to carry out "Democratic" principles.

The "plane" on which we "run politics" don't suit the *Herald*. Of course not,—and we can't say we're sorry. The *Herald's* trouble now is that we don't like the political views of that Democratic statesman, Jefferson Davis, that we think them unsafe and hold that the people should oppose them with unceasing vigilance We decidedly prefer to "run politics on this low plane" rather than on the high pressure principle adopted by Jefferson Davis a few years ago and sanctioned by the Democratic party The *Herald* thinks there is no "sense" in opposing "Mr Davis'" views on political questions So the editor of that paper thought during the whole period of the rebellion. But a majority of the people,—controlled by what he calls their "prejudices,"—do not look at matters in this light, and, strange as it may seem to Jeff Davis' Democratic admirers, they will continue to hold to their "prejudices" against him and his "principles" rather than accept him as a leader as the *Herald* editor and his party have done

Immigration to this country from Europe is very large this spring, though it may be impeded by a late order of Prussia withholding passports to young men until they shall serve twelve years in the army. Very few of the immigrants arriving go South, notwithstanding efforts made to influence them in that direction. A large proportion, mainly mechanics, manufacturers and laborers, remain near the Atlantic coast, because they feel the need of immediate employment This is one of the causes that cheapens labor in all that section, enabling proprietors of mills and shops to compete successfully with those further inland. Most of the immigrants who are farmers proceed directly to the west, many of them expecting to settle near friends or acquaintances who have preceded them

Charles Dickens is in treaty with two parties one in New York and one in Philadelphia, to come to this country towards the close of the summer and remain six or seven weeks, giving a series of readings from his own writings The idea of his New York lessee is that he should commence toward the end of the fashionable season at Saratoga, Newport, Long Branch and Cape May, and subsequently go through the principal cities of the Union.

The "big organ" of the Oregon Democracy still keeps whining about negro equality' The poor thing evidently supposes that its insane ravings on this topic after the old fashion of its party are going to revolutionize the political sentiment of the country It is utterly incapable of learning that this clap trap is of no more avail than was the hideous din its party used to keep up about the "Abolitionists" We don't remember of having ever before met any one so distrustful of his ability to keep at even pace with the negro or so tortured by his fears that the negro will win the race If things go on at this rate—if the editor of the *Herald* and his political associates actually find themselves distanced as they now are to-day we promise to do our best to have a "Bureau" established to protect them

The Richmond *Whig* thinks that politics will be lively among the inhabitants of Russian America as the mélange of a member of Congress will be somewhere in the neighborhood of $15 000

THE INFANT'S FRIEND —MRS WINSLOW'S SOOTHING SYRUP is the best and surest remedy in the world for all diseases of children such as teething, wind colic, etc It corrects acidity of the stomach regulates the bowels, gives rest health and comfort to mother and child Perfectly safe in all cases, as millions of mothers can testify Office 215 Fulton street, New York and 205 High Holborn London England Beckettar, Smith & Dean, Agents for the Pacific coast

AN ARTICLE OF TRUE MERIT — 'BROWN'S BRONCHIAL TROCHES are the most popular article in this country or Europe for Throat Diseases and Coughs and this popularity is based upon real merit which cannot be said of many other preparations in the market which are really but weak imitations of the genuine Troches

CERTAINLY —Every person walking along Front street, drops in the store of KOHN & FISHEL, No 91 Front street, where they can be suited with everything from a fine suit of clothes down to a needle at prices that defy competition

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT, CHAS E. McLANE,
WM C. RALSTON, A. HAYWARD,
LOUIS A CARNETT.

LOUIS A CARNETT President and Manager.
JOHN HEWSTON Jr Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One-eighth of one per cent (heretofore a quarter) for all amounts over $1,000 and two dollars for any smaller sum Returns made in twenty four hours

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 900 parts gold 2 cents per ounce
On bullion from 900½@900 parts gold, 4 cents per ounce
On bullion from 600½@750 parts gold, 6 cents per ounce
On bullion from 750½@949½ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage But there will be no charge for refining less than two dollars

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN IN FORTY EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express

CHARGES AT U S BRANCH MINT

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution

For refining bullion under 900 parts gold 3 cents per ounce
For refining bullion from 900½@900 parts gold, 5 cents per ounce
For refining bullion from 600½@750 parts gold, 7 cents per ounce
For refining bullion from 750½@930 parts gold, 11 cents per ounce
For refining bullion from 930½@949½ parts gold 14 cents per ounce

The charge for coining is half of one per cent, and the charge for making fine silver bars, the same

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they turn which would have been made had they been deposited for coinage

850 parts equal Mint return, at refining charge of 14 cents
846 parts equal Mint return, at refining charge of 14 cents
846 parts equal San Francisco A. & R Works return at refining charge of 9 cents

SATURDAY MORNING, MAY 25 1867.

A DRAW BRIDGE ACROSS THE WILLAMETTE.—A scheme is on foot in this city to construct a draw bridge across the Willamette, connecting this shore with the high land at East Portland. We were, yesterday, shown a draft of the proposed structure, together with a profile view of the river bottom, surveyed from the foot of Stark street. The survey was made by Mr T R Brook, Civil Engineer, San Francisco. The drawings show a length of 1 461 feet, with six spans, including the pivot draw. The estimates and specifications are, for cribs yards of masonry, 8,384, cubic yards of stone filling, 26,880; 400 piles; 1,917,888 feet of lumber, board measure, cost, $140,042 88. This sum, it is stated, is the price at which a responsible firm of San Francisco is willing to take a contract. We are not at liberty to state at present, what steps have been taken or what may soon be done in the matter, but we can say that decisive measures will be adopted as soon as some preliminary affairs shall be settled. The bridge proposed is precisely such an one except as to length, as the Yolo bridge at Sacramento. That has seven piers built on piling, very heavily timbered, four spans of 147 feet each in the clear of piers, one pivot draw of 168 feet 9 inches in length, total length of bridge, 804 feet; the roadways are 10 feet in the clear. The cost for spans was $78 per foot, cost of draw, $97 per foot. It was built several years ago, when material and labor were much higher than now. Mr H. R. Leonard, civil engineer and bridge builder, of Sacramento, estimated that he can build a good wooden bridge now of the same width for $60 per foot. At that price the proposed bridge here, would cost $87,840; but these set of materials and labor being less here than in California, it is quite probable that a much less sum, say $60,000, may be made to complete the bridge. It is to be ardently hoped that the enterprise will be undertaken and carried to completion at an early day.

VANCOUVER ITEMS.—The subjoined items are from the *Register*: In excavating for the foundation of a house in the rear of Crawford & Co.'s store, a few days ago, the workmen found a four pound cannon ball imbedded in the hard cement some distance beneath the surface. Nothing like a reasonable conjecture could be given for its appearance there. ...The Rev. J. B. A. Brutlette, V. G., a long officiating priest at the catholic church in this city, returned on Thursday from a lengthy sojourn in the east. The presence of the reverend gentleman amongst us again will afford much satisfaction to his numerous friends, by whom he is most highly esteemed. ...The following statistics of Vancouver village are obtained from County Assessor Mail population, 1,109; female population, 953; total population, 2,105. Total value of property assessed, $600,018. Number of voters voted, 630. ...A soldier who had been deputed to draw the rations of the company to which he belonged, came to the shop of Dugan & Co., butchers, some days ago, and offered to sell an order on them for a large quantity of beef, for a ridiculously little sum. On being asked how the company were going to get along without beef, he replied that they were tired of beef straight, and had sold him to sell the order and buy vegetables. They did so, bought the order, and he left. Next day he came up and, when it was discovered that he had not only found a purchaser for the beef ordered, but had got the tickets for all the bread due the company for the month of May. He may have got $30 for both, as the purchasers were the losers.

LEARNING HOW TO DO IT.—The Oregonians have had a hard experience in learning how to prepare their produce for shipment, and many articles of really superior... have been oftentimes driven out of the California markets, for no other reason than that they were not in shape to offer for sale. Good bacon, for instance, ... gone begging buyers at reduced prices, where bacon no better really, but nicely prepared, at good figures. All this is being remedied in ... days. Our people are learning, at last, that in the California markets, so for about as genuine merit, and are acting accordingly. We ... make these remarks from noticing of late, ... of bacon, half barrels of dried apples, salmon ... other articles, put up in very neat and inviting ... for shipment to San Francisco. Oregonians have ... yet to learn before they can go into every ... terms of equality with all other localities; ... they are notably improving, and evidently ... the road to knowing "how to do it."

THE FELLIE SISTERS.—The entertainment presented by these talented young girls last evening, was favored with the presence of a considerably larger audience than on the first evening. Misses Annie and Minnie have excellent voices and their vocalization is perfect, while the ... passing acting is naive and pleasingly natural. Little Lucy is a clever child and gives promise of following closely in the footsteps of her older sisters. We learn that they will make brief visits to Vancouver, Oregon City, Salem, Albany and Corvallis, and before leaving California, will reappear in this city. We feel certain that upon their return here, they will have no reason to complain of their reception as every one who heard them last evening, was much pleased with the entertainment.

A REVIVAL SERMON.—Rev. Mr. Fraser, Pastor of the Presbyterian Church of this city, preached, last Sunday, a revival sermon from Habakkuk, 3d chapter, 2d verse: "Lord revive thy work." The sermon seemed so well ... to the purposes intended, and was so highly appreciated by the audience present on that occasion, that ... of a large number of those who heard and many who ... to hear it, the Reverend gentleman has ... repeat it to-morrow evening. The sermon ... at 7:30 o'clock P. M., at the Presbyterian ...

... RETURN OREGON.—Gov. Woods came down from Salem yesterday and called on us last evening. He ... us that at his earnest solicitation, Gen. Steele has promised to send a force of troops as soon as practicable to establish and occupy a post on White Creek, about twelve miles south of Clark's creek in South Eastern Oregon. This is a region of country that has been ... unprotected and where the Indians have been ... nearly troublesome. A few troops there will greatly ... the settlements and adjacent valleys.

EXCURSIONS.—The steamer *Ranger* is advertised to make an excursion to Vancouver, leaving Portland at 10 A. M., Sunday and arriving in time for the *Military Dress Parade*, at the Garrison. Next follows an announcement that the *Pioneer Troup* will make an excursion to Vancouver, at the same hour, "but not in time for the sallitary dress parade, as it comes off at 9 A. M." Both boats will be accompanied by a brass band—the former by the ... band, and the latter by the 14th Infantry band.

POLICE COURT.—There was no business in the Recorder's court at the morning session yesterday, except in the case of the city vs Robert Rutherland, in which ... motion for arrest of judgment was allowed and the ... dismissed. A new complaint was, however, filed ... him with disorderly conduct, to which he ... guilty and was fined $5 and costs.

... O'NEIL.—Johnny O'Neil who has been and is ... stellar favorite of theatre goers, leaves this morning ... professional tour to Puget Sound and Victoria. He ... in company with the wizard Hermann. We never ... the latter in any of his tricks, but if he is half as ... as Johnny O'Neil in his line, the two will make a ... team in the show business.

A BALL AT VANCOUVER.—The dancing men and dancing ... of this city will be pleased to learn that the Occidental Base Ball Club of Vancouver, has determined to close the day of the match game, the 20th, with a dancing party at Metropolis Hall, to which all the world and his wife and the rest of mankind are invited. Tickets, two dollars, in coin.

LECTURE BY DR. SCHWAB.—It will be remembered that Dr. ... will lecture at the Synagogue, at 11 o'clock A. M., Sunday, for the benefit of the Southern Relief Fund. Those desirous of aiding that fund, will find this an excellent opportunity to join their charities with intellectual pleasures. Dr Schwab is reputed as an able man and pleasing lecturer.

A FUNERAL SERMON.—By request, a discourse upon the death of Edward H. Brackett, formerly a resident of this city, and who died in San Francisco, California, May 1st, will be delivered by Rev. Dr. Atkinson, in the Congregational Church of this city, Sabbath evening, May 26th. The friends of the deceased are respectfully invited to be present.

CROP PROSPECTS.—In conversation with an experienced farmer of the Upper Willamette valley, yesterday, we learned that the prospects for a large wheat crop, are very promising. The late rains have been of immense value to the agricultural interests. The fruit trees are everywhere very full and it is thought there is no longer any danger from frosts.

AN INFANT SEAL.—A young seal was brought across the river yesterday by a man who had purchased it of an Indian. It was captured somewhere in the Columbia river, was quite lively and attracted a good deal of attention from the loafers-on at its infantile gambols.

STOCK EXHAUSTED.—The *Montana* will take away this trip a considerable quantity of flour, cleaning out all ... The demand is at present beyond the supply. More would be sent on orders if it could be got down the river in time.

WEATHER.—The river here is again falling and the lower wharves are reappearing. The Vancouver *Register* says the river at that point, is "at a stand-still," and "farmers on the bottoms are hopeful of a light freshet this spring."

WAREHOUSE RECEIPTS.—Arrived per steamer *Senator*, from Oregon City, yesterday: 3 bales woolen goods, 29 boxes pipe, 3,425 qr sks flour, 554 bags wheat, 22 boxes apples, and 8 boxes butter.

SALT.—We learned, yesterday, in the course of our ... among the merchants, that there are only a few sacks of Liverpool salt in this market, and not a very large supply of Carmen Island.

LECTURES AT ASTORIA.—Hon. J. H. Mitchell will go down the river on Monday, for the purpose of delivering a lecture at Astoria on that evening, in aid of the Congregational church of that place.

MASONIC FUNERAL.—On the occasion of the burial of a brother, Wm. Clinton, late of East Portland, the Masons of this city attended in procession, yesterday afternoon.

IRON WORKS.—The Oregon Iron Works were yesterday hauling down to the P. T. Co's wharf, a lot of iron fronts to be shipped to Salem.

PUBLIC SALE AT AUCTION.—Mr. A. B Richardson, Auctioneer, will sell to-day at 10 o'clock A. M. at his auction store, a valuable lot with a cottage residence.

THE PIONEERS.—The Pioneers will meet on their grounds ... at half-past five o'clock this afternoon.

THE FIRESTEP.—The steamer *Fidelater* will leave this port at 1 P M, to-day, for Victoria and Sitka.

... WASHINGTON.—This steamship will sail this evening ... San Francisco.

THE FIRST IN THE MARKET.—Since the acquisition by our Government of Russian America, the attention of many of our people has been attracted that way, and several of our acquaintances have expressed a determination to migrate thitherward during the summer. We notice, however, that while many are thinking and talking, Messrs. Allen & Lewis are *acting*. A lot of goods, consisting of flour, dried fruit, soap, wrapping paper, etc., from their house, was placed on board the *Fidelity* yesterday, marked "P. D, Sitka." This will probably be the first shipment of goods to reach Sitka from any point in the United States, since the territory changed owners.

FOR GENTLEMEN'S WHITE SHIRTS, OF THE STAR BRAND, we would advise you to go to the Fox Bros; also, for the best assortment of Ladies and Gents' Kid Gloves.

HARD TIMES AND WORSE COMING.—The fact of hard times is impressing itself on the mind of every man in Oregon. The fact is, however, somewhat palliated, by the fact that clothing can be bought at Barman Bros at prices within every man's means. People of the interior counties can save money by purchasing of Barman Bro, a Salem clothing store under charge of Mr Beehman.

NOTICE TO THE PUBLIC.—From and after this day the well known FRENCH LAFAYETTE RESTAURANT will serve a first class table at the reduced price of Seven Dollars per week.

MRS. DR R. C ANDREWS, of 67 West 29th Street, New York, says of the Grover & Baker Sewing Machines "I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken, its adaptation to the different kinds of work, from fine to coarse, without change of needle or tension"—Wm Currier & Co., Agents, 103 Front street, Portland, Oregon.

"THE COLORS FOR ME."—That is what every lady says who has used the FAMILY DYE COLORS of Howe & Stevens. The fact plainly is that no other dyes have the slightest show where these are about. Sold by Smith & Davis.

OFFICE AND RESIDENCE removed to the South-west corner of FRONT and YAMHILL Streets, opposite E. J. Northrup's Hardware store.

Something New in Dental Surgery.—Extracting teeth by Dr. Richardson's apparatus, with Ether or Rhigolene Spray, is local in its application, the teeth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxide (laughing gas). N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last 5 years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the Office.

Consumption like the Rattle Snake, always gives warning of its approach. A hacking cough, dull pain in the chest, difficulty of breathing, are the indications that there is more or less irritation of the lungs. If this be neglected, and ere until pustules are formed, followed by tubercles, which sometimes eat off the blood vessels, death will be the result. **Allen's Lung Balsam** will heal the irritated parts, allay the inflammation, removing the phlegm and matter, thus stopping the cough, and preventing fatal consumption. PERRY DAVIS' VEGETABLE PAIN KILLER, after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is as internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken internally in case of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy in case of Burns, Bruises, Sores, Sprains, Cuts, Sting of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century.

FROM PUGET SOUND.

Our Olympia correspondent (May 21st) writes as follows:

The District Court closed at this place on Saturday, having been busy most of the week upon liquor cases. The greatest difficulty was to procure jurors who were willing to take Indian evidence. Almost every man subject to jury duty within a radius of fifteen miles, was summoned to the Court House. The old settlers were mostly opposed to taking evidence—that being the test of a juror. It is believed the law expounders of Oregon interpret this law differently and more satisfactorily. However, several juries were found and some of the aggressors of law and good order were punished.

A man named William Wilson was convicted of shooting at one Leo, in the streets of Olympia, last fall, with intent to kill, and on Saturday was sentenced to five years imprisonment. On Sunday night he escaped from the jail and fled. A reward is offered by the authorities, but as yet no trace of him has been found. A petition, signed by the jurors on the case, and by a large number of citizens, had been circulated since his conviction; but it seems he preferred a quicker mode of getting away. His escape was undoubtedly effected by the assistance of outside friends.

The District Court for Pierce county commenced yesterday, Judge Darwin presiding. It is understood that a large number of Indian liquor cases to be brought up before that Court.

A new paper has just been issued from the *Tribune* office, by Al. Pettygrove & Co., of Port Townsend, called the *Weekly Message*. Al. is a practical printer, and publishes a neat and tasty paper. It flies the Union colors; and gives as a reason for anticipating the arrival of its material at Port Townsend, its editor's anxious desire to be in the canvass. Being formerly a Democrat, but unable to stalk to that rotten bulk now called Democracy, he comes out in a manly manner and gives good reasons for his course—at the same time advising all the old-style Democrats to do the same. He goes on to prove that the old-fashioned Democracy is among the things that were, and that the present party called by that name is corrupt; that its candidate was never a true Democrat; was a Knownothing, and unreliable in his political actions. Many old-line Democrats throughout the whole Sound country take this same view, and like true, honest men, will support the Union candidate. They believe that the true principles of the American Government—of life, liberty and happiness—are only advocated by the Union Republican party, and that it is the duty of every citizen to support them; that Alvin Flanders is a true friend of his country, honest and upright in his acts, a character irreproachable, with an ability to represent the wants of the people.

Every breeze that sweeps down from the North brings glad tidings to the friends of the Union cause. The people are fully alive to the importance of this canvass, and in no campaign before has such an interest been taken. The Copperheads acknowledge the "change that's coming over the spirit of their dreams," while they dread and fear the result. In every county the friends of freedom are working hard—working harmoniously, and working to conquer, while the mutterings of discontent comes from all quarters of the Copperhead camp like an approaching storm, gathering force as it advances, which on the 3d of June will burst upon their discomfited ranks, bringing only terror and dismay.

Speaker Miles was in town the other day, and promulgated a new theory to test Democrats, (I suppose he meant Copperheads), which he thinks should be further investigated. He says when you find a man with a low forehead, the hair nearly to the eyes, you always find a good Democrat; and when you find one with a forehead bare to the back of his neck, you of course find a Union man. I am willing to admit that where you find a great number of men with low foreheads and long hair, you find *many* Copperheads. It reminds me of a story: Several years ago, two candidates, one a Whig and the other a Democrat, were canvassing their district for Congress, and one day, while riding along, the Democrat bet the Whig that the first man they would meet would be a Democrat. Soon after they overtook an old, dilapidated fellow, reeling along, to whom the Democrat stated the bet, and asked him his politics. "A good bet," said the man. "But what are you?" asked the Democrat, a little out of patience. "I'm ragged," said the fellow; "I'm dirty; I'm lousy, and I'm drunk—all good Democratic signs—but, my friend, you have lost—I am not a Democrat!

The Pacific *Tribune* of May 18th has the following items:

On Monday last, while driving a wagon, upon which was half a cord of bark, into town, the driver, named Johnson, fell from the load and two of the wagon wheels passed over his body, fracturing a rib and it is supposed seriously injuring him internally. He is under the care of Dr. Willard.

Postmaster Manson has been instructed by the Treasury Department to commence the money order system on Monday, May 20.

The Union men have placed Mr. Cyril Ward, of Pierce, in nomination for Joint Councilman for the Connell district of Pierce, Mason and Chehalis. With proper effort we think he can be elected.

THE INDIAN WAR IN MONTANA.—From the Montana *Post* of the 2d inst. we glean the following:

The organization of companies for the Indian expedition to the Yellowstone, in order to protect the passes entering to Gallatin Valley, is progressing very rapidly. Volunteers are abundant, and the only difficulty is to procure enough horses, saddles, etc., to mount them. The Quartermaster has purchased 110 horses and about the same number of saddles and bridles, and the men are engaged in breaking the horses.

Some fifty of the volunteers, enough for one company, will start to-day, and companies will go on as fast as they can be mounted. Company B will be able to follow Company A by Saturday. There will be about 250 men raised in Virginia.

Governor Meagher left on Tuesday morning for Bozeman, where there is already a company formed. The Governor will probably accept the services of one full company of Bannock warriors, who are now near Bozeman, ready to act as scouts. The Governor has been fortunate in the selection of officers for this expedition. Most of them have seen service and are anxious to engage. However, it is not Governor Meagher's purpose to do anything more than protect and defend Gallatin Valley. He intends no aggressive movement against the Indians. The passes leading into the valley will be effectually guarded. He has deemed it his duty, in view of the threatened danger, to assume the powers he has as Commander-in-Chief of the Territory, because it was believed that if a force for protection was not raised at once, Gallatin Valley would be overrun by hostile Indians, and the inhabitants run from their homes.

The following paragraph shows that a strenuous effort is making to form a Union-Republican party in the South:

The Republican Congressional Committee, which holds permanent session in Washington, is giving special attention to the organization of the party in the Southern States with a view to coming elections. Books have been opened in which a record is made of the men in every locality who favor the views of the party as represented in Congress, and steps are taking to organize everywhere energetic, active and zealous committees, so that, as the Washington *Chronicle* remarks, long before the next Presidential election "there will scarcely be a hamlet in the South that will not be placed in direct and daily communication with the Committee." Documents are also distributed, not only on the subject of reconstruction, and in support of the policy and action of Congress, but in favor of the high protective views of Pennsylvania manufacturers. Arrangements are also being made for lectures, speeches, pamphlets and other forms of appeal to the people in all parts of the South, and by speakers and writers of all classes. A great deal of money is needed for the prosecution of this gigantic labor, for which the Committee look to the party throughout the North.

Molded peat is the latest device for picture frames, decorations, etc., for which paper mache and hard rubber are now used. An English patent protects the invention.

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 3 P. M., May 24, 1867.

Gold closed in New York on the 22d at 135¾, being a rise of the fraction from the day previous, and 1⅝ higher than at our last week's report. On the evening of the 23d, yesterday, legal tenders in San Francisco, were quiet at 73 buying and 73½ selling.

General trade has not yet met the expectations of dealers, either at the East or on the Pacific coast. The depression seems to be general and to affect nearly every department of trade. The manufacturing interests, especially, are suffering on account of over-accumulation of manufactured goods and decreased consumption. In New York, stocks which, last fall, were thought to be short, have proved more than enough, and the consequence is a considerable depression in prices, and the forced suspension of mills, both cotton and woolen. In the early part of the season many sagacious business men predicted a financial crash, during this year, but happily, the fears of such a disaster have mostly passed away, and, though all admit and feel the bad effects of the present stagnation, there is a general impression that the worst is nearly over, and that better times may be confidently expected within a few months. The dullness of trade on this coast, unquestionably results in great part from the commercial difficulties in the East, and will continue in sympathy with them. We have, however, to be thankful that an increased demand for our breadstuffs at an advanced price, has saved our producing classes from the severest effects of the commercial stagnation.

The local jobbing trade of the city for the past week, has been limited. The larger transactions have been mostly confined to flour and wheat. Telegraphic advices from San Francisco, note a drop in flour of 30c to 40c, and in wheat 10c; but there is no fear that the decline will be permanent. Our flour is now occupying a place in the New York market, along side the first brands of America. We learn through Messrs. Knapp, Burrell & Co., that recently, a fancy grocery house had transferred a lot of Imperial Extra from the sacks in which it was transported, to barrels, calling it Plants (a fancy brand used by the box tea of 5th Avenue and Up Town,) and sold it to its regular customers without hearing a complaint. The retail price was $10 per barrel. This, though a bit of sharp practice by the grocer, shows the estimation in which our flour is held in the first market of America. Large orders are received for our flour for Philadelphia, Boston and other first class Atlantic markets, where it already has the preference over all California brands. The news from the shipments to China, is to the same effect. Indeed, so well has it succeeded, that exports in San Francisco are daily buying our brands and transferring them to California barrels and branding them with California marks, in order to bring up their local reputation.

In hardware, there has been a slight falling off, since last week. Nails are variable; can be bought for 7@7½c. We quote the latter figure. If the report of the burning of Idaho city be confirmed, it will probably create a demand for building hardware.

Bacon is lower; we quote sides 10@ 11c; hams, 11@ 12c; shoulders, 8@9c. The supply is in excess of the demand, and no improvement can be looked for soon. Oregon lard in cans, is 1½@1½ lower; in bulk, 1c@1½c lower. In groceries, business is quiet. There is a slight decline in coffees and sugars. Other articles remain unchanged.

The *S. F. Alta Californian* of the 18th has the following in relation to wool: We learn from the proprietors of the San Francisco Wool Exchange, Messrs. McLennan, Whelan & Grisar, that the Wools that have come forward this year are in splendid condition, being very light, and that in the average this will shrink at least 15 per cent. less than last year. The number of bales received this spring—any since April 1st—amounts to 5,800, of which about 4,500 bales were stored at the San Francisco Wool Exchange. The amount actually unsold in town is about 4,350 bales, averaging so far 230 lbs per bale—equal to 1,043,500 lbs. There are hardly any buyers in the market, except those of the local mills, and they only buy sparingly, the imported goods interfering greatly with our home manufactures. These mills buying much less than in former years, must seriously affect the interests of all engaged this year in Wool raising, as the prospects of Eastern markets are anything but flattering for our shippers. From a New York Wool report of April 20th we clip the following:

Here is the situation—light stocks on hand, yet nobody cares to buy. The manufacturer says: "I have Wool which will last me a month; I will not buy." But when told that Wool is exceedingly scarce, and farmers are exacting great things for the coming clip, he replied: "It must have my Wool at a price which will afford me a profit, or what is the use of running my machinery?" It would certainly be a mark of wisdom were many of our manufacturers to entirely close their mills and wait till their Wool went so low or goods so advanced as to yield a fair profit for continuing their business."

We annex the following various extracts from San Francisco commercial reports of the latest dates received, as showing the condition of the markets in that city, so far as we have an interest in it:

The *Times* of the 18th says: Operations in merchandise have of late been more than usually circumscribed, and of lessened importance and variety than heretofore. Imports, upon the contrary, have been liberal, partaking of their accustomed variety. These go to swell the stocks in warehouse, adding largely to our supplies of staples, and causing a marked depression in values generally. Our market has now arrived at that peculiar state when it is almost impossible to dispose of round invoices of merchandise at either public or private sale. Heretofore the mere announcement of a cargo sale of desirable goods at auction would draw out a crowd of sharp competitors for bargains, but now the spirit of speculation has departed, jobbers are unwilling to purchase beyond current wants. Thus it is, that our Commission Merchants and Importers are often hampered and puzzled how to act for the best interest of Consignors. Perhaps ordered to sell upon arrival, yet finding none willing to purchase any considerable quantity of goods, even at a handsome advance from the nominal prices of the day. With all this seeming lethargy among trade circles there is a good degree of anticipation discernible among the jobbers, not a few of them sending forward into the interior liberal supplies of general merchandize upon orders.

Hides are scarce and wanted. Leather is in fair supply and the market without any important change, prices ruling well sustained. Tallow is in fair demand at current rates. Wool of the spring clip arrives freely; the market however is quiet. Dry hides 14@14½c ₱ lb; green salted, 6½@7c. Oregon fir-tanned leather, $3 50@3 per side; sole, 18@21c ₱ lb; harness, 26@34c; calfskins, 90@1 25; kip, 80@1 00. Wool, American, 18@21c ₱ lb.

PROVISIONS—A previously noticed, imported cured and cut meats have been nearly entirely neglected, owing to large supplies, both of Oregon and California. The same remark will apply to Lard and Butter, the latter ruling at 2c ₱ lb lower.

Bacon—Quotable at 12@12½c ₱ lb for smoked; Oregon and California at 14@16c.

Hams—Eastern, California and Oregon, as to quality, 14@16c ₱ lb.

Clothing—The large amount of California and Oregon manufactured in the market has interfered materially with the imported article, which is in excessive supply.

Our lumber supplies are on the increase. The local demand for redwood is active, and prices well sustained at $20 ₱ M for rough, $30 for dressed for small cargo sales. Oregon pine by the cargo sells at $18@19 for rough, $20 for dressed.

The dairy supplies are upon the increase. Butter and cheese continue to arrive freely, only restricted by the low prices ruling, many of our dairymen packing and others picking butter, with the hope of obtaining better returns as the season advances.

Domestic Produce Market.

PORTLAND, May 24, 1867.

Business very quiet; arrivals of flour, wheat and bacon plentiful; the stock of the latter accumulating, with bad prospects for the producer. Apples are a little higher below, but the commencement of the season for tropical fruits, has practically put an end to the season's operations. Wheat has received a slight check, and for the time, buyers have a little hesitancy about buying largely.

Weekly Retail Family Market.

PORTLAND, May 24, 1867.

Trade has improved a little. There are few if any changes to note in current prices of fruits, provisions, groceries, etc. Vegetables, however, are very scarce and high, excepting radishes, lettuce, green onions an spinnach, of which there is no abundance at low prices.

Spring chickens are in demand at high prices. A few have been brought in, selling at 45c ₱ doz.
